## Decorative Screens

Our screens are not only spectacular they also provide privacy, help block the weather from an area & engineered by our team but also make a real feature. We offer numerous finishes eg. Corten, Aluminium, Stainless, Galvanized, mild Steel to name a few, also we can include Powder Coating.

# Sculptures

Beautiful Sculptures & feature pots can make your outdoor area a statement. We ensure they are structurally sound and will last, usually constructed from 3mm Corten steel ensures longevity as it rusts back on itself to make it super strong, it also boasts character from the rusting effect.

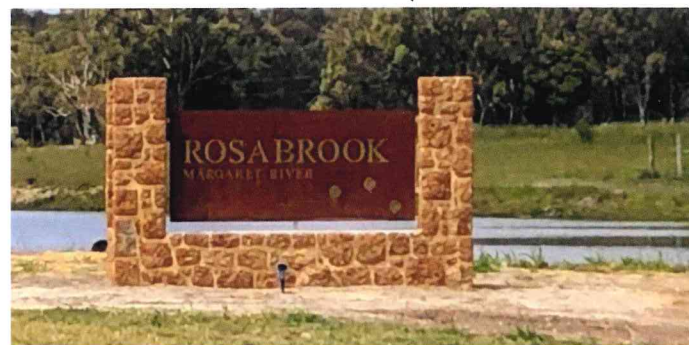

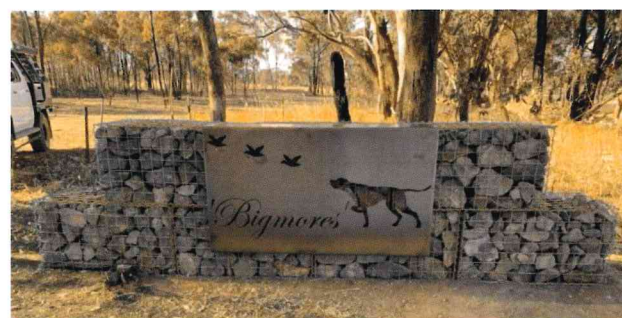

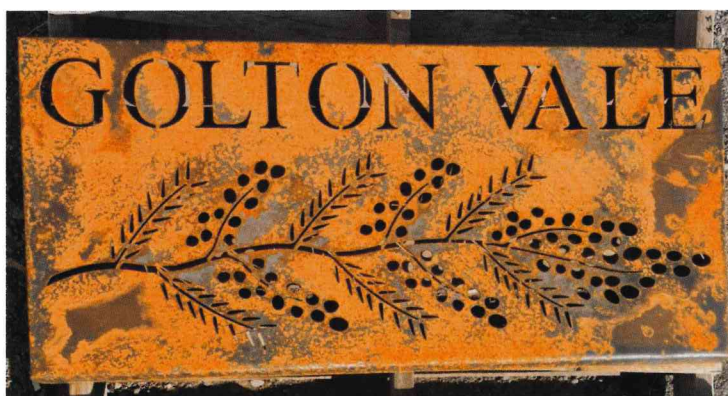

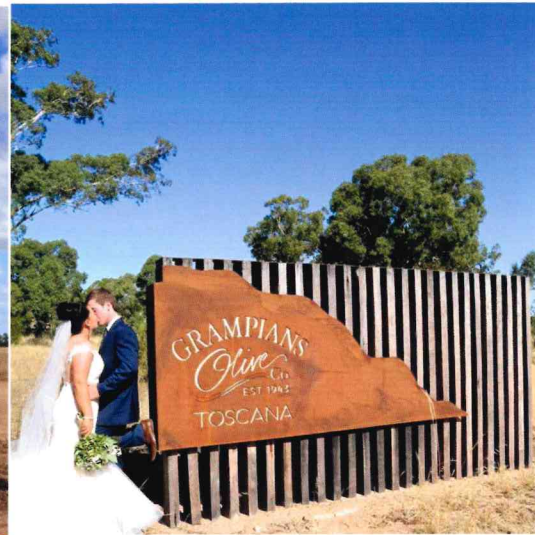

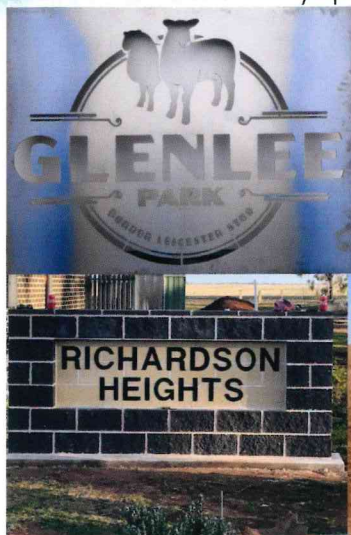

## Signs

We take into consideration bracing, pre drilled holes & cost effective ways to make your Sign look amazing.

Hand us a file from your graphic artist or draw a rough layout, we can even use your business card, we offer many options of finishes to have your Sign uniquely yours.

## Custom Fire Pits

Custom detailing and sizes available to make every piece unique.

Constructed from High quality steels, includes Stainless, Mild and the very popular Corten.

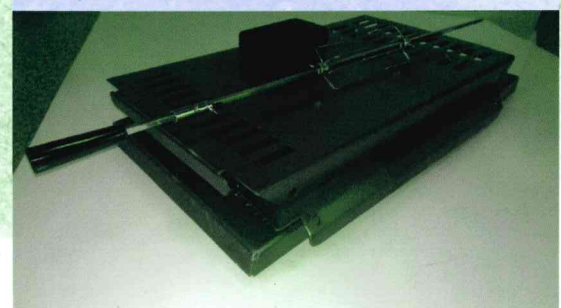

We produce the perfect feature for every garden, entertaining area or man cave.

Cooking plates and flue systems are also available.

Cutting edge plasma cut design allows the team at Smallaire Steelisoarty to make your Fire Pit individual, unique, functional and engineered design so it will last a very long time and not smoke you out of your relax time.
