

BLOWER KIT

Smallaire Newsletter

November 2024

The Smallaire blower kit is designed to effectively blow air over your Slasher/baler, removing stubble residue and dust buildup that can lead to overheating gearboxes and potential fires. It's an affordable solution to help protect your Slasher/baler, which is one of your key investments!

Features & Benefits of the Smallaire Blower Kit at a glance:

- * Reduce Labour Costs
- * Reduced Cleaning Downtime
- * Highly efficient
- * Various kit packages available
- * 12-month warranty
- * Locally designed and manufactured
- * Strong steel construction with powder coating for durability
- * Fire and Danger Prevention
- * Prevention of Gearbox Failures
- * Lightweight and easy to install
- * Custom units available
- * Australian Made

Price Starting from: \$ 4,000 INC GST*

Customer Spotlight: Roger Thamm. Farmer from Pimpinio Victoria

"We took delivery of a new Gason stubble mulcher in 2012 and realized we needed a solution to keep gearboxes and the deck free from stubble and dirt to prevent overheating and fires. Smallaire supplied a blower kit, which I fitted easily. The system has worked exceptionally well, and we haven't had any issues with buildup. It keeps the slasher clean and easy to maintain."

3. Top inlet nozzle

Research & Development

Since Gary Small built the first evaporative air conditioner in 1974, research and development have been the driving force behind all of our products. Customer needs fuel this R&D—questions like, “Can you do this?” inspire us to find innovative ways to meet their requirements. These challenges push us to continuously improve and refine our designs, leading to more efficient and effective solutions. At Smal Aire, our commitment to innovation allows us to claim R&D Tax Incentives from the Australian Government, funding our projects to deliver the quality products our customers rely on. We also protect our intellectual property by securing patents both in Australia and overseas.

Other products we manufacture

Products we design and manufacture
