Customer Spotlight:

Rick Marra - Netherby, VIC

Rick purchased the new stainless-steel halves back in 2019, and after four seasons of harvesting, he reports *no signs of wear!*

Pictured above is the new Stainless Steel halves installed after the plastic halves have worn out.

The image on the left side depicts an original equipment manufacturer (OEM) plastic spreader half that has worn through, leading to significant deterioration in performance. This wear can cause uneven distribution of chaff across the rear of the machine, ultimately affecting the efficiency and quality of the harvest.

Additional Offerings

We also have **Replacement Wear Plates** for Combine Harvester tailboard chaff spreaders, made from durable 304-grade stainless steel. These come complete with all necessary mounting bolts for your convenience.

Upgrade your harvesting game today with Smaltaire! Don't miss out on the chance to enhance your efficiency and durability this season.

Research & Development

Since Gary Small built the first evaporative air conditioner in 1974, research and development have been the driving force behind all of our products. Customer needs fuel this R&D—questions like, “Can you do this?” inspire us to find innovative ways to meet their requirements. These challenges push us to continuously improve and refine our designs, leading to more efficient and effective solutions. At Smal Aire, our commitment to innovation allows us to claim R&D Tax Incentives from the Australian Government, funding our projects to deliver the quality products our customers rely on. We also protect our intellectual property by securing patents both in Australia and overseas.

Other products we manufacture

Products we design and manufacture

Tarpfast, Air Seeder Components, High Pressure blowers, Evaporative Airconditioning for Domestic, Industrial Evaporative Airconditioning and Portable units, Extraction systems, Stirring Fans, Roof & Wall Fans, Custom designed fans to suit almost any application and also SteelArt.

Global exportation of our products

Wimmera's Regional Manufacturer

We at Smalldaire know how important our local economy is.

For 50 years we have been manufacturing our products with peace of mind knowing that we are employing local people, supporting other local businesses and most importantly supplying a quality product to our customers that we can guarantee 100%.

Our ability to help you with real advice makes us excited to make your life a breeze...
