

BLOWER CLEANING KITS

Smallaire Newsletter

March 2017

Slasher Cleaning Kit

The blower kit is designed to blow air over the Slasher where stubble residue and dust lay, these build ups can cause overheating gearboxes and may result in devastation.

Cheap insurance to help prevent your Slasher catching fire!

- Reduce Labour costs
- Fire & Danger Prevention
- Cleaning down time to a minimum
- Could save on Insurance Premiums
- Helps to prevent gear box failures

Can you afford not to have this on one of your main investments?

These Blower kits are cost effective as your maintenance & clean down time would be less than half, allowing you to be more productive.

We took delivery of a new Gason stubble mulcher in 2012 and realised we had to try and keep the gear boxes and deck free from stubble and dirt build up to prevent overheating and fires.

Smallaire supplied me with a blower kit, 12 outlet manifold and air trumpets which I fitted myself very easily with little trouble.

The system has worked exceptionally well over the past seasons and we haven't had any issues what so ever with build ups of any kind plus it keeps the slasher totally clean which makes it easy to maintain.

Standard 10 Outlet Kit Price from \$ 5,199 + GST*

* Price may vary, please confirm with Smalldaire prior to ordering

Insurance Premium

Check with your Insurance agent for possible Premium Reductions by having this fire preventative solution in place.

Luke Ellis, Polkemmet Farmer says- "The addition of the hydraulic fan kit from Smalldaire on our Gason Mulcher has been a great investment.

Not only has it reduced the fire risk, improving safety it has also been a huge benefit of time, on average we would save 2 hours a day as there is no need to stop to check or manually clean the slasher down".

Research & Development

We at Smal aire perform extensive Research & Development on our products we manufacture.

As we are an Innovative company, with the continuous development of our current and new evolving products we are able to claim R & D Tax Incentives from the Australian Government, this enables us to fund our projects to deliver quality innovative solutions that our customers require,

Smal aire invests in the Intellectual Property of the product by having their products Patented in Australia and overseas.
